

NITRO-System

Installing the Photoshop Plug-ins

1 Preface

These plug-ins are for use with the Windows versions of Adobe Photoshop: 6.0.1, 7.0.1, CS (8.0.1), CS2 (9.0) and Macintosh versions of Adobe Photoshop: 6.0.1, 7.0.1, and CS (8.0.1). Their behavior is not guaranteed in other versions.

2 Installing the Plug-Ins

2.1 How to Install the Windows Version of the Plug-in

- (1) Make sure that Photoshop is closed

If Photoshop is running, shut it down.

- (2) Copy Files

Copy all of the files in the `NNS_Photoshop_Plugin\Win\File Formats` folder into one of the following folders:

- Photoshop 6.0.1
`<Photoshop installation folder>\Plug-Ins\Adobe Photoshop Only\File Formats`
- Photoshop 7.0.1 and later
`<Photoshop installation folder>\Plug-Ins\Adobe Photoshop Only\File Formats`

Copy all of the files in the `NNS_Photoshop_Plugin\Win\Filters` folder into one of the following folders:

- Photoshop 6.0.1
`<Photoshop installation folder>\Plug-Ins\Adobe Photoshop Only\Filters`
- Photoshop 7.0.1
`<Photoshop installation folder>\Plug-Ins\Adobe Photoshop Only\Filters`

This completes the installation.

2.2 How to Install the Macintosh Version of the Plug-in

- (1) Quit Photoshop.

If Photoshop was already running, quit the program.

- (2) Extract a compressed file.

In the **NNS_Photoshop_Plugin : Mac** folder, find **NNS_Photoshop_Plugin_Mac.sit** and copy it to any place in the Macintosh hard disk. Then extract the file with **Stuffit Expander** (version 5.1 or later). The **NNS_Photoshop_Plugin_Mac** folder is created.

- (3) Copy files.

Copy all of the files in the **NNS_Photoshop_Plugin_Mac : File Formats** folder to (Folder that has Photoshop installed) : Plugin : Adobe Photoshop Only : File format. Copy all of the files in the **NNS_Photoshop_Plugin_Mac : Filters** folder to (Folder that has Photoshop installed) : Plugin : Adobe Photoshop Only : Filter.

This completes the installation.

The **NNS_Photoshop_Plugin_Mac.sit** and **NNS_Photoshop_Plugin_Mac** folders can be deleted.

3 How to Uninstall the Plug-Ins

The procedure for uninstalling the plugin is the same for Windows and Macintosh versions.

Begin by making sure that Photoshop is closed. If Photoshop is running, shut it down.

Next, delete all of the files that you copied during the installation.

This completes the uninstall procedure.
